# Debt-equity swap gets int'l backing

**By Michael Leachman**

**NEW YORK** PARLIAMENTARIANS FROM ALL over the world warmly accepted the Philippine proposal to amend the 1988 Investment and Security Act and create a new law on equity swap, at the 10th Annual Conference of Parliamentarians of the World in Manila.

A report from the Philippine Parliamentarians Association (PPA) said that the proposal to amend the 1988 Investment and Security Act and create a new law on equity swap, at the 10th Annual Conference of Parliamentarians of the World in Manila.

The PPA said that the proposal to amend the 1988 Investment and Security Act and create a new law on equity swap, at the 10th Annual Conference of Parliamentarians of the World in Manila.

## DOUBLE TROUBLE

# Pacquiao battles Velasquez today

Manny Pacquiao will be looking to make a comeback in boxing today as he battles welterweight champion Juan Manuel Velasquez in a 12-round bout for the WBO title at the MGM Grand Garden Arena in Las Vegas.

Pacquiao, 34, is making his comeback after a two-year hiatus from the sport. He last fought in 2007 when he defeated Antonio Margarito.

Velasquez, 30, is the current WBO welterweight champion. He has a record of 29 wins and 1 loss.

The fight is scheduled for 12 rounds. Pacquiao is expected to fight in the 12th round.

Pacquiao is expected to fight in the 12th round.

# SWS: Half of Pinoys favor people power

ONE OF EVERY TWO FILIPINOS FAVORS using "people power" to remove President Macapagal-Arroyo from office, results of a nationwide Social Weather Stations survey released yesterday showed.

Fifty-one percent of those polled from Aug. 26 to Sept. 5 said they were in favor of a people power revolt should the impeachment case against the President not push through.

On Sept. 6, lawmakers in the House voted 158-51 to uphold the justice committee resolution junking the three impeachment complaints against Ms. Arroyo. However, subsequent mass actions have so far been desultory, failing to stir up a popular uprising.

The percentage scores for and against people power were 62-25 in Metro Manila, 51-28 in the rest of Luzon, 40-31 in the Visayas, and 53-31 in Mindanao, with the remainder of 100 percent being the undecided in each area.

While the middle to upper or ABC classes were split 43-42 on the use of people power, Classes D and E were highly in favor of its use (51-26 for Class D and 54-19 for Class E).

Large majorities in all study areas were for impeachment: 90 percent in Metro Manila, 82

percent in Mindanao, 79 percent in the rest of Luzon, and 69 percent in the Visayas. Overall, 79 percent wanted the President impeached.

The higher the socioeconomic class, and the higher the schooling, the greater the support for either the impeachment or resignation of President Arroyo.

The key factor in the negative sentiment was the belief of most Filipinos (57 percent of the respondents) that Ms. Arroyo's admitted phone calls to "a Comelec official" amounted to instructing him to cheat in the 2004 election, and were not merely meant to protect her votes as she had claimed in her June 27 apology.

Among the minority 36 percent accepting that she had called the Comelec official only to protect her votes, 68 percent were pro-impeachment, 44 percent were pro-resignation, and only 35 percent were pro-people power.

For the survey, SWS conducted face-to-face interviews of 1,200 adults divided into random samples of 300 each in Metro Manila, the rest of Luzon, the Visayas and Mindanao. Sampling error margins were at plus or minus 3 percent for national percentages and plus or minus 6 percent for area percentages.

## Used vehicles ban stays—Palace

MALACAÑANG YESTERDAY DENIED IT HAD plans to revoke an executive order banning the importation of used vehicles into the Subic Bay Freeport as alleged by Sen. Richard Gordon, who had threatened to break away from the Arroyo administration over the issue.

According to Press Secretary Ignacio Basye, he was told by Executive Secretary Eduardo Ermita that he had not seen or heard of a new executive order that would revoke EO 156, as Gordon had claimed.

"I should know," Basye quoted Ermita as saying.

EO 156 bans the importation of right hand-drive vehicles because of the many complaints about the safety of the vehicles that had been converted to left hand-drive.

Basye also denied Gordon's allegation that the planned revocation of EO 156 was a trade-off for Rep. Eulogio Magaysay's withdrawal of his signature from the impeachment complaint against President Macapagal-Arroyo last month.

"This kind of talk is pure speculation ... we believe that no deals were made during the

impeachment vote," Basye said in an interview with dBBC radio.

He also denied any knowledge of Gordon's claim that Magaysay was brought to Malacañang before his turnabout by his cousin, Zambales Gov. Vicente Magaysay, and sister, Rep. Milagros "Mitos" Magaysay.

Basye said he did not know of any other authority allowing the importation of right hand-drive vehicles into the country.

Gordon said he had proof that the Magaysays had secured a recommendation from the Palace legal office for the revocation of EO 156.

Governor Magaysay yesterday accused Gordon of lying when he claimed that the governor had lobbied for the repeal of the order banning the importation of used cars through the Subic Bay Freeport in exchange for the political support of the Magaysay clan.

Magaysay also denied that he owned or managed Subic Bay Motors which imports used vehicles into Subic. *Christine Avendaño and Rosette Oreja, PIM Central Luzon Desk*

# The Ru

RUSSIANS, NOW THE world's top spenders in international tourism, are the next target of the Department of Tourism.

"Russia has become one of the emerging sound market economies with healthy trade and budget surpluses. Russians now have more disposable income, which they spend on international travel," Tourism Secretary Joseph "Ace" Durano said in a statement.

Durano said Russian tourists spent an estimated \$12 billion in the last three years.

Among the DOT's target markets is Russia's East Asian city of Vladivostok, which is experiencing an economic boom owing to its proximity to the Korean peninsula, Japan and China.

Durano said that with the right tour package, prospective tourists from Vladivostok could easily be lured to the Philippines, which is the nearest tropical destination.

Edward Grigoriev, DOT's market representative in Moscow, reported that the tour industry in Russia demonstrated dynamic growth in the last few years. Its outbound travelers in 2004 totaled 5,978,000, ranking 10th in the world.

Southeast Asian destinations, including the Philippines, took a 12-percent share of the total outbound volume from Russia.

Based on recent arrival numbers released by the DOT Statistics Division, the number of Russian tourist arrivals in the Philippines grew a remarkable 154.2 percent from January to July this year, with more than 5,000 Russians visiting the country.

## Fil-Am journalist dies at 56

FILIPINO-AMERICAN journalist Mercideta (Merci) Tira-Andrei, former foreign correspondent of the Philippines News Agency, died at her home in Virginia, USA, after suffering a heart attack on Sept. 6. She was 56.

She is survived by her husband Codin and children Viktor, 19, and Amanda, 17.

Tira-Andrei was preparing dinner for her family when she complained of a severe headache and collapsed, family friend Bing McBrigin said.

Paramedics rushed her to the nearest hospital before taking her by helicopter to Washington Hospital.

Doctors there tried but were unable to revive her. An autopsy showed three blocked arteries.

Tira-Andrei covered the White House for over 20 years for several news outfits, including the local BusinessWorld. She also wrote for several Filipino-American newsletters in Washington, Virginia and Maryland.

Her brother-in-law Mesemo Bonilla said her remains would be cremated with interment tentatively set for Sept. 14 in Virginia.

the authors, where their line method is used.

It is not an inflammatory reaction, but a normal response to the presence of a foreign body. The body's immune system recognizes the foreign body as a threat and mounts a defense. This defense involves the release of inflammatory mediators, which cause the blood vessels to dilate and become more permeable. This allows white blood cells to enter the tissue and fight the infection. The inflammatory response is a natural part of the body's defense mechanism and is essential for healing.

## MALACANAN PALACE

4344 J. Neurosci., September 24, 2008 • 28(39):4338–4344

For the *de novo* model, we used:

Through all periods of political turmoil in our past, the public service has always been the great stabilizer of the nation and keeper of the people's welfare. Through the latest episode of partisan conflict, I think you can see that the keeping of conscience is an even keel.

I work on a school partnership with you - there are public school teachers here and projects in motion, in our medical and social workers, field personnel, researchers and staff - there will be the help of public services with your staff and house.

Helps set to a good and just President. Let people see people's back open by giving great the best service possible - started by performance, courtesy, and respect. Let that open spirit be enhanced by open dialogue, open opportunities for growth and knowledge, and a system of rewards and incentives to those who excel in the line of duty.

It is hoped that the Empress will attempt to play a more active role in bridging the gap between government and the people, by being the first woman leader that we could become. I will do my best to my role as an excellent one with no light possible, possible corruption, and promote a concept of law, and not of man, for the greater good of the nation.

Let us have a fresh start based on mutual respect, commitment, unity and teamwork. Let us lead the nation and serve the people, and take them to the threshold of a brighter future.

Thank you and God bless the Philippines!

Bush rating dips below 40 percent

AP/WIDEWORLD

CAIRO, Egypt (AP) — Egyptian President Hosni Mubarak has won a fifth six-year term in the country's first contested presidential election, according to the official results announced Tuesday.

Mubarak, 81, won 88 percent of the vote, according to the official results. He was the only candidate to appear on the ballot, which was held on Sunday. The election was the first since 2005, when Mubarak won a second term in a runoff vote against Ahmed Nassef, a former vice president.

The election was held in a climate of political repression, with the government cracking down on opposition groups and the media. The results were widely criticized by opposition groups and the international community.

Mubarak's victory was seen as a continuation of his rule, which has been marked by economic growth and political stability, but also by human rights abuses and corruption. He has been in power since 1981, when he became president after the death of his brother, Anwar Sadat.

# De La Salle head warns of military intervention

**De La Salle head warns of military intervention**  
 The head of the De La Salle University (DLSU) has issued a stern warning to the Philippine government, stating that any military intervention in the South China Sea would be met with a strong and unified response from the university and its community. He emphasized that the university's primary concern is the safety and well-being of its students and faculty, and that it would not remain silent in the face of any aggression.

## Two faces of Agusan del Norte

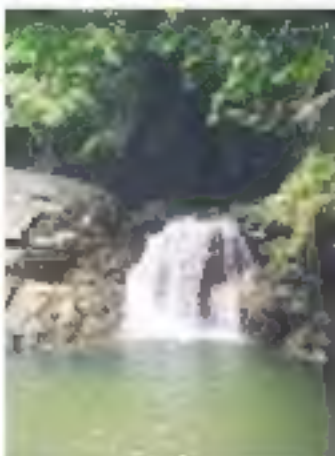

Text and photos by Neil A. Reyes

Agusan del Norte, considered as the southernmost part of Mindanao, is a multi-faceted province characterized not only by its scenic beauty but also by its rich cultural heritage. It is a province that is rich in natural resources and is a treasure trove of historical and cultural landmarks.

One of the most prominent features of Agusan del Norte is its diverse landscape. The province is home to a variety of natural wonders, including the Agusan River, the Agusan National Park, and the Agusan del Norte Provincial Capitol. The Agusan River, which is the longest river in Mindanao, flows through the heart of the province and is a major source of water for the local population. The Agusan National Park, on the other hand, is a vast expanse of forested land that is home to a wide variety of flora and fauna. The Agusan del Norte Provincial Capitol, which is a beautiful example of Spanish colonial architecture, is a must-visit destination for anyone interested in the province's history and culture.

Agusan del Norte is also known for its rich cultural heritage. The province is home to a variety of indigenous tribes, each with its own unique customs and traditions. One of the most famous of these tribes is the Agusanon, who are known for their traditional weaving and pottery-making. The Agusanon people have a long history of craftsmanship and their products are highly valued both locally and internationally.

In addition to its natural and cultural attractions, Agusan del Norte is also a major center of commerce and industry. The province is home to a variety of businesses, including agriculture, manufacturing, and services. The Agusan River, which is a major source of water for the local population, is also a major source of electricity for the province. The Agusan del Norte Provincial Capitol, which is a beautiful example of Spanish colonial architecture, is a must-visit destination for anyone interested in the province's history and culture.

## Romance with protection

And to Thomas R. Morgan  
President of Morgan Stanley

IT'S AN UNCOMMON  
saying, but you shouldn't  
sign the prenuptial  
agreement until you've  
talked to a lawyer. It's a bit  
of a cliché, but it's true.  
You'll want to make sure  
you're protected before you  
say "I do."

That's the message from the  
lawyer, and it's a good one.  
Prenuptial agreements are  
not just for the rich and  
famous. They're for everyone.

Ready, willing, but  
the pre-nuptial  
agreement is tricky.  
Financial planning

When it comes to prenuptial  
agreements, the law is clear.  
You need to know what you  
are getting into before you  
sign.

That's the message from the  
lawyer, and it's a good one.  
Prenuptial agreements are  
not just for the rich and  
famous. They're for everyone.

**Light the romance** with one of the most beautiful bouquets of flowers that Mother Nature has to offer. The bride's bouquet was one of the highlights of the wedding.

# Romance with protection

By Susan S. Glick

For couples and the community, the most important decision they face for the wedding of the century is the choice of the wedding venue. "There is a lot of pressure to have a wedding in a hotel," says Susan S. Glick, a wedding planner.

Wedding planners and couples must consider a lot of factors when choosing a venue. The most important factor is the location. The venue should be in a place that is easy to get to and has a lot of parking space. The venue should also be in a place that is beautiful and has a lot of character.

Another important factor is the cost. The venue should be in a place that is affordable. The venue should also be in a place that is beautiful and has a lot of character.

The venue should also be in a place that is beautiful and has a lot of character. The venue should also be in a place that is affordable.

The venue should also be in a place that is beautiful and has a lot of character. The venue should also be in a place that is affordable.
